

SITE MONITORING

WolfPeak's site monitoring services can take care of all your onsite monitoring needs:

- **Noise monitoring**
- **Vibration monitoring**
- **Dust monitoring**
- **Water quality monitoring**

Getting the WolfPeak team to undertake your monitoring ensures you get a consistent high standard of monitoring and frees up your environmental team to manage the broader project.

Our team are all environmental professionals with experience on large construction projects. All monitoring is carried out in line with regulatory requirements and monitoring protocols using modern equipment calibrated to NATA standards.

Standard reporting is provided with all monitoring and includes relevant observations to contextualise the data. Data will be presented in a tabular form in the report with raw data provided either as an Appendix or electronically where relevant. Standard timelines for reporting will be 48 hours after the monitoring event has been completed. Faster turnaround times can be arranged.

EQUIPMENT

The equipment to be used in the monitoring would be as follows:

MODE	PROPOSED EQUIPMENT
Noise	NL-52 EX sound level meter NL Logging Kit NX-42RT
Vibration	VIBRA+ Vibra Case and insert
Water	Horiba U-52
Dust	DustTrak II Aerosol Monitor

RATES

Standard rates for monitoring in the Sydney Metropolitan area are outlined in the following table.

RATES		
Float	Includes mobilisation to and from site and four hours of a resource on site. Activities undertaken in the four hours include; set-up at site, a briefing from the client on monitoring requirements and locations, undertaking monitoring and pack-up. Clients are required to provide a monitoring plan/ schematic of monitoring locations prior to site work and confirm access arrangements.	\$700.00
Noise		\$100.00
Vibration		\$100.00
Water		\$100.00
Dust		\$100.00
TOTAL PER MONITORING EVENT (FULL SUITE OF PARAMETERS)		\$1130.00
Hourly Rate	After float and up to 8 hour day. Includes all monitoring streams (includes any of the monitoring parameters individually or in combination). This would typically cover any out of hours monitoring or additional monitoring events beyond the 4 hours allowed for above.	\$120.00/hr
REPORTING		\$100.00
TOTAL PER REPORTING EVENT (ALL PARAMETERS WITH NO ANALYSIS)		\$800.00
TOTAL PER MONITORING AND REPORTING EVENT		\$1930.00
LOADING		
Less than 48 hrs notification	20% loading on total monitoring event cost	
Less than 48 hrs report turnaround	40% loading on reporting cost	

All rates can be adjusted depending on the extent of the monitoring required and the number of parameters to be measured. Ongoing and regular monitoring pricing can be discounted as a package price and would reduce the costs.
