

## CURRICULUM VITAE

### DAVID STUBBS

Environmental Consultant

Contact | 0468 827 667

[dstubbs@wolfpeak.com.au](mailto:dstubbs@wolfpeak.com.au)

### Expertise

- Environmental management in local and regional planning.
- Environmental modelling & systems thinking
- Global climate policies & politics
- Climate science and & EU environmental policies and processes

### Qualifications

- Bachelor of Environmental Science & Management/Forestry, Southern Cross University, Australia
- Diploma of Project Management, Australian Institution of Project Management
- Masters in Environmental Management and Physical Planning, Stockholm University, Sweden

### PROFILE

David is a skilled environmental project manager with over 6 years' experience in environmental management on major civil infrastructure projects and in the natural resources, transport, infrastructure and forestry industries. He has experience in the development and implementation of construction environmental management plans, preparation of REFs, greenhouse gas and resource efficiency reporting protocols, erosion and sediment control plans, ensuring compliance with project approval conditions, along with managing environmental monitoring including noise, dust, vibration and water quality monitoring.

David has further experience in managing the company's biodiversity offsets scheme, which involves developing spatial mapping data sets and systems to track offsets, whilst assisting landowners and developers to better understand the requirements of the scheme. He has proven ability in building effective relationships at all levels, from the labourers, contractors and superintendents, through to regulators and community stakeholders. Additionally, he has experience with the development of environmental training programs, tool-box talks and inductions for subcontractors, along with incident and complaint investigation and reporting.

### PROFESSIONAL DEVELOPMENT AND CERTIFICATIONS

- SEEC Consulting – Course on Erosion and sediment Control (Blue Book)
- WorkCover NSW, Occupational Health and Safety Construction Induction Certificate (White Card)
- Driving on unsealed roads or in difficult terrain using advanced techniques / 4WD techniques and recovery
- Greencap, Biodiversity Offsets Scheme Training

## RELEVANT PROJECT EXPERIENCE

### WolfPeak Environment & Heritage, Sydney and Wauchope

#### *Environmental Consultant*

March 2018 – Present

#### **Project Manager | Various Projects**

Through managing the offsetting business growth from WolfPeak's office at Wauchope, David has built a great understanding of the Biodiversity Offsets Scheme. He effectively fosters relationships with landowners and developers, particularly on the Mid North Coasts, to help them better understand the scheme and what they need or hope to get out of the project. Developing spatial mapping data sets and systems to track offset sites and new projects that require offsets has advanced David's project management skillset.

#### **Environmental Assessment Officer | Kempsey Shire Council**

- Preparation of a variety of Review of Environmental Factors (REF's)
- Managing Council Projects - from planning to approval to works management

#### **Environmental Advisor | Seymour Whyte - Section 3 Woolgoolga to Ballina Pacific Highway Upgrade**

- Developed a Greenhouse Gas Protocol for the project.
- Developed GREP (Government resource Efficiency Policy) report.
- Developed Progressive Erosion and Sediment Control Plans as part of works to ensure compliance with Blue Book standards on site.
- Liaised with the Traditional Owners to ensure construction had minimal impact on culturally important items and places.
- Established and maintained positive relationships with regulators.
- Environmentally monitored noise, dust, vibration, water quality in line with the Project's Environmental Protection License under the NSW Protection of the Environment Operations Act.
- Implemented Ministers Conditions of Approval.
- Revised and implemented the Project's Construction Environmental Management Plan and its associated sub-plans.
- Prepared environmental assessment documentation for the construction phase related to ancillary project facilities and design changes in accordance with the NSW Environmental Planning and Assessment Act 1979 and other various pieces of ornamental legislation.

#### **Environmental Coordinator | Ferrovia Agroman - Stage 2 Northern Beaches Hospital Connectivity and Network Enhancement Project**

- Undertook day to day liaison with the construction team on the project's environmental performance
- Ensured all progressive erosion and sediment control plans were regularly updated and strategies implemented conformed to Blue Book standards on site.

- Managed contaminated areas on site in line with the Contaminated Land management Act.
- Developed Environmental training programs, tool-box talks and inductions for subcontractors.
- Carried out environmental monitoring on site including; noise, vibration, water and dust.
- Maintained regular liaison with RMS, EPA, DPE and Northern Beached Council to ensure the relationships were maintained and facilitated informed decision making for the project.
- Reported and investigated on incidents and community complaints.
- Devised strategies to meet construction targets whilst encouraging environmental best practice and conformance with ELP, EMPs and associated key documents.
- Prepared Environmental Work Method Statements to ensure environmental aspects were considered and effectively managed.
- Conducted environmental inspections and internal audits as well as assisted in developing strategies to mitigate identified risk.
- Maintained compliances and incidents registers and documented control systems and reviewing procedures.

## Olsbergs MSE

### *Global Manager*

March 2014 – September 2016

#### **Global Manager | Supercar Lites Program**

Olsbergs MSE is an international rallycross team, designing, constructing and racing Supercars and Supercar Lites in the FIA world Rallycross Championship in Europe and the Red Bull Global Rallycross Championship in North America. Role included (but not limited to)

- Managed the Supercar Lites Program globally,
- Managed purchasing and parts sales throughout Europe and North America,
- Managed parts, trucks movement and sales at all events in Europe and North America,
- Championship Coordination for RX Lite within the FIA Rallycross Championship,
- Drove the development of parts to improve reliability and safety,
- Co-ordinated shipping parts and cars internationally, and
- Wrote and improved international motorsport regulations.

## Rewards Group Limited

### *Environmental and Forestry Manager*

February 2006 – March 2009

#### **Environmental and Forestry Manager | Various Projects**

- Provided input into plantation site selection and suitability.
- Managed plantation establishment including all environmental aspects of civil works.

- Planned and managed thinning and harvesting.
- Developed drainage and water storage distribution channels as well as managed contouring and road building.
- Mapped plantation using GIS.
- Engaged, supervised and negotiated with contractors.
- Established and improved weed control and harvest techniques.
- Managed over 10 contractors and up to 60 seasonal workers.
- Created and progressed working relationships with different groups of Traditional Owners.
- Ensured yearly attainment of Forest Stewardship Certification (FSC)
- Managed fire control for 8 separate plantations.
- Managed Occupational Health & Safety program for Rewards West Australian Forestry Program.
- Worked on sampling for research into store CO2 in plantations to prepare for Carbon Project.
- Achieved Forest Stewardship Certification (FSC) for the Rewards Sandalwood Project through constant efforts to greatly improve environmental, economic and social processes. Grew from a yearly average of 200 hectares a year to 1000 in addition to all previous plantings and no additional staff.
